Attachments: 191101 WashingtonEtAlManuscriptPostReviewChangesAccepted.docx; 191101 WashingtonEtAlSuppMatPostReviewChangesAccepted.docx

Email contents in this series by number:

1. Collette and Weber reviews with my responses, and QA clearance of manuscript.
2. Post tech reviews manuscript and SM with changes tracked.
3. Post tech reviews manuscript and SM with changes accepted.

I think this is all the files needed for STICs. Let me know if I am wrong! And I think these are the files that should be reviewed in the next step of clearance. And I think my next step in clearance review is Caroline Stevens -- so I am copying this email to Caroline.

Have a great weekend Bre and Caroline!
John

Subject: Manuscript to enter into clearance

Hi Bre,

1. Collette and Weber reviews with my responses, and QA clearance of manuscript.

Here come a series of emails with files to enter a manuscript into STICs for clearance -- too many large files to do in a single email. I will number the emails, list files in each email, and identify my last intended email. And please let me know if I am missing something, or need to do something else.

Thanks!

John
